Buildings covered	City Hall, Public Works Annex, Riverbend Public Library, Municipal Court (78,000 sq ft total)

About this sample. This is a condensed excerpt written for a fictional company and a fictional solicitation, to show how a Clearbid proposal is organized. The company, its people, clients, identifiers and the RFP are not real. A full response would also include pricing forms and required attachments supplied by the client.

1 Cover letter

Dear Members of the Evaluation Committee,

Cedar Hollow Facility Services is pleased to submit this proposal to provide janitorial services for the City of Riverbend's four municipal buildings, totaling 78,000 square feet. We have cleaned public and commercial facilities in the region since 2017, and we currently serve a county courthouse of comparable size.

Our proposal meets every mandatory requirement in Section 3 of the RFP. Our approach is built around the two priorities the City stated in the solicitation: consistent nightly coverage and documented quality inspections. Each building will have a written cleaning schedule, a dedicated crew under one supervisor, and an inspection record the City can review at any time.

We appreciate the opportunity and welcome any questions from the Committee.

Sincerely,
Dana Whitfield
Owner, Cedar Hollow Facility Services LLC

2 Executive summary

Cedar Hollow will provide nightly cleaning five days a week, weekly floor care, and quarterly deep cleaning across all four sites. Work will be performed by a dedicated crew of six, led by an on-site supervisor with seven years of commercial cleaning experience.

- **Coverage:** Monday through Friday, 6 pm to 11 pm, at all four buildings, as required by Section 3.1.
- **Accountability:** every shift and inspection is logged in a shared record the City can view online.
- **Responsiveness:** two-hour response to urgent requests during contract hours.
- **Quality:** weekly inspections and a monthly report to the City's facilities manager.

3 Compliance matrix

The matrix below maps each mandatory requirement in the solicitation to the section of this proposal that answers it. (Excerpt; the full matrix covers every requirement in Sections 3 and 4.)

RFP SECTION	REQUIREMENT	WHERE ADDRESSED	STATUS
3.1	Nightly service, Monday-Friday, 6 pm-11 pm	Section 4, Technical approach	MET
3.2	Background checks for all staff	Section 5, Staffing plan	MET
3.4	Green Seal-certified cleaning products	Section 4, Technical approach	MET
3.6	Monthly quality inspection reports	Section 7, Quality control plan	MET
4.2	$1M general liability insurance	Attachment B, Certificate of insurance	MET

4 Technical approach

Each building receives a written cleaning schedule that maps every task to a frequency. Restrooms, break rooms, offices and lobbies are cleaned nightly; hard floors are buffed weekly; carpets are extracted and interior windows cleaned quarterly. The schedule for each site is provided to the City before the contract start date.

The supervisor walks each building at the end of the shift and records completed tasks in the shared log. Supplies are restocked from a locked storage area at each site, so no shift is delayed by shortages.

All cleaning chemicals are Green Seal-certified, and crews use color-coded microfiber cloths and mops to prevent cross-contamination between restrooms and other areas.

5 Staffing plan

ROLE	COUNT	EXPERIENCE AND TRAINING
Site supervisor	1	7 years in commercial cleaning; OSHA 10 certified
Custodial staff	5	Average 4 years of experience; trained in bloodborne pathogens and chemical safety

All staff assigned to the contract will pass a background check before their first shift, and the City will receive the crew roster in advance. Planned absences are covered from a pool of two trained relief workers.

6 Past performance

CLIENT	SCOPE	PERIOD	RESULT
Ashford County Courthouse	32,000 sq ft, nightly service	2022-present	Contract renewed twice; zero missed shifts in 2025
Oakview Medical Plaza	18,000 sq ft, healthcare-grade cleaning	2021-present	98% average inspection score

7 Quality control plan

Each week, the supervisor inspects 20% of rooms in every building using a 25-point checklist. Any deficiency is corrected within one business day. On the fifth business day of each month, the City's facilities manager receives a report showing inspection scores, issues found, and the corrective action taken for each.

If any building scores below 90% in two consecutive months, Cedar Hollow will meet with the facilities manager within five business days and deliver a written improvement plan.
